To: jai.carey@students.mq.edu.au

Dear Jai,

Thank you for speaking to me via Zoom last week.

As discussed, Course Transfer applications for Session 1, 2022 will open later this year.

To course transfer to the Bachelor of Information Technology, you must meet the following transfer requirements:

Completion of 40cp (including RPL) and including:

(i) COMP115 (P) or COMP1000 (P)

For information on the Course Transfer application process, please refer to: <https://students.mq.edu.au/study/changing/undergraduate-course-transfer>

Please note that you will be transferred into the 2022 curriculum, so you must follow the 2022 Handbook (still being finalised). To give you an idea of the course structure, please refer to:

* <https://coursehandbook.mq.edu.au/2022/courses/C000105>

* <https://coursehandbook.mq.edu.au/2022/aos/N000062>

The current Course Transfer process consists of the following four stages:

1. Your current admitted course will be discontinued.

Any future enrolment will be withdrawn.

It is your responsibility to re-enrol in units and re-register in classes in your new degree once the transfer is processed.

2. A new admission will be made in the newest curriculum for your chosen course.

3. Where applicable, previously passed units within your old degree will be transferred to your new course. Failed or withdrawn units will not be transferred, but they will remain on your transcript under your previous admission.

4. Recognition of Prior Learning from non-Macquarie studies (including SIBT) will not be re-applied to your new course. You will need to re-apply for Recognition of Prior Learning to have this credit re-assessed for your new course. Note that any credit you have received from a completed Bachelor degree at Macquarie will also need to be re-applied for through the Recognition of Prior Learning process.

You will need to provide the reference number 2068763 when applying for your course transfer to show that you have sought advice from the Faculty.

Good luck with your studies and if you have any further questions, please don't hesitate to ask.

Kind regards,
Ming

Hi Ming,

Hope you are well.

Looking for some guidance around when the application dates are. The link provided states "Applications for Session 1 2022 will open later this year".

After you emailed me 3 weeks ago, I called Student services to find out if they knew, and they also couldn't help me. They advised me to keep checking around November 1st.

Also, as we discussed, I am looking to do session 3 courses to align with this new transferred degree. Can you point me to someone in the department (Bachelor of IT) so I can have a conversation with them around courses in S3 to prevent impact on my transfer? I would like to have my T's crossed to avoid any delays in this process.

Any guidance would be appreciated!

Cheers,

Jai Carey
